2026 Health Manpower Survey on Doctors

To support the Government's planning and projection of healthcare manpower, the Medical Council of Hong Kong ("the Council") will continue to collaborate with the Department of Health ("DH") to jointly conduct the 2026 Health Manpower Survey on Doctors.

The survey will be conducted in two phases. Doctors who have previously opted for email communications with the Council[1] will receive an invitation to the online survey from a designated email address (mchk-survey@dh.gov.hk) in November 2026. Other doctors will receive the hardcopy survey by post in January 2027.

While participation is voluntary, doctors' support is crucial to the success of the survey and the development of the Government's long-term healthcare manpower strategies.

The survey is conducted in a completely anonymous manner. For enquiries about the survey or questionnaire, please contact Mr Henry TAM (Tel: 2961 8566) or Mr King LO (Tel: 2961 8472) of the DH's Health Manpower Section.

The Medical Council of Hong Kong
